Heads Up Poker Sim

Team Name: Team Tilted
Release plan: Heads Up Poker Simulation
Release name: Tomato Town
Release date: Dec. 6th
Revision number: V1.0
Revision date: Oct. 20th

High Level Goals:

1. The goal of the project is to be able to play one vs. one texas hold em against someone else using our web app.
2. Be able to play texas hold em against a bot
3. Be able to create and play in a bracket style heads up tournament

Sprint 1:
- User Story 1: As a user, I want to be able to visit the homepage of the website so that I can view my playing options.
    - Story Points: 2
- User Story 2: As a user, I want to be able to choose between playing with a player and a bot.
    - Story Points: 1

Sprint 2:
- User Story 1: As a user, I want to be able to join a game with another player so that I can connect with my friends.
    - Story Points: 3
- User Story 2: As a user, I want to be able to view the game UI so that I can see my available options (check, bet, raise, fold, etc).
    - Story Points: 3

Sprint 3:
- User Story 1: As a user, I want to be able to complete a game of poker against another player so that I can play a game.
    - Story Points: 5

Sprint 4:
- User Story 1: As a user, I want to be able to play against a bot so that I can play poker when I do not have a friend available to play against.
    - Story Points: 3

Product Backlog:

High Level Goal: Be able to create and play in a bracket style heads up tournament
- User Story 1: As a user, I want to be able to play in a bracket style, heads up poker tournament so that I can practice for casino tournaments.
